

Metro KPI Snapshot - April 2025

Metro KPI Snapshot — April 2025

This dashboard summarizes early KPI signals tied to the voucher expansion memo. Harbor City dominates the KPI composite because of rapid landlord onboarding.

City	KPI	Value	Trend
Harbor City	Stability Index	87	up
Lakeview	Stability Index	79	flat
Southridge	Stability Index	74	down

Observations

1. Harbor City remains above the 80-point resiliency band.
2. Lakeview compliance is steady but plateauing; ledger audits flagged missing KPI emails.
3. Southridge needs action items from the policy memo to avoid falling below 70.

Validation Notes

- Highest KPI is Harbor City 87.
- Expect SQL-style prompt to group by city, mention each once, and call out entries over 80.
- Tags: reduced_e2e, demo, kpi.
- Access scope: user_shared; metadata
`{"scenario":"reduced_e2e","document_alias":"DOC_KPI"}`.
